2. The following is a total of men lost by MOS:

| <u>Number of Men</u> | <u>MOS</u> |
|----------------------|------------|
| 1                    | 014        |
| 1                    | 055        |
| 3                    | 060        |
| 1                    | 086        |
| 9                    | 345        |
| 1                    | 405        |
| 16                   | 409        |
| 6                    | 521        |
| 2                    | 652        |
| 101                  | 657        |
| 3                    | 666        |
| 7                    | 673        |
| 1                    | 675        |
| 8                    | 699        |
| 2                    | 734        |
| 1                    | 821        |
| 4                    | 855        |
| 1                    | 858        |
| <u>50</u>            | 861        |
| TOTAL 218            |            |

3. The total number of medical department replacements received by MOS for the period 17 July to 31 December 1944 is as follows:

| <u>NUMBER RECEIVED</u> | <u>MOS</u> |
|------------------------|------------|
| 6                      | 855        |
| 50                     | 409        |
| 50                     | 861        |
| <u>76</u>              | 521        |
| TOTAL 182              |            |

4. In addition to the 182 replacements mentioned above we received 30 replacements that were reclassified from cooks, truck drivers, and basics. These men were transferred to the medical department and trained as litter bearers, (657's).

5. The requisitions we submitted were mainly for medical and surgical technicians, however, when we received the replacements we found a great number of these men required further training. We also requisitioned ambulance drivers and other necessary military occupational specialties. However, our replacements consisted mainly of basics (521's). It has been necessary to give all replacements, regardless of their MOS, further training upon arrival within the division.

6. All medical department officer replacements were satisfactory, however, needed orientation on the operation of the medical service of an Armored Division.
